

Oil and gas chemical process (general higher second Five-materials)

Filesize: 8.95 MB

Reviews

This book is definitely not effortless to begin on looking at but quite entertaining to read. Better then never, though i am quite late in start reading this one. I am just easily can get a enjoyment of looking at a written ebook.

(Elinor Hyatt)

OIL AND GAS CHEMICAL PROCESS (GENERAL HIGHER SECOND FIVE-MATERIALS)

To get **Oil and gas chemical process (general higher second Five-materials)** PDF, you should access the hyperlink beneath and save the document or gain access to other information that are related to OIL AND GAS CHEMICAL PROCESS (GENERAL HIGHER SECOND FIVE-MATERIALS) book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 414 Publisher: China Petrochemical Pub. Date :2011-09-01 version 1 by Huang Fenglin compiled the oil and natural gas chemical process to oil, gas, coal, biomass and other hydrocarbon materials in the carbon and hydrogen elements changes main line to oxygen, nitrogen, sulfur etc. elements introduction as feeder to chemical reaction core, systematically introduced organic chemical development Petroleum chemicals and products focus describes hydrocarbon vapor cracking, aromatics and its derivatives, synthesis gas, olefins products, carbon a chemical process, production methods, production principles, process conditions, catalyst and reactor characteristics, technical and economic indicators and energy efficient use and so on. Different reaction thermodynamics, kinetics analysis entry point explore process conditions, catalyst reactor choice of response and atom economy impact. By oil, coal, natural gas, biomass composition and the nature and organic chemical products associated with analysis, expanding the traditional sense, petroleum-based raw materials, organic chemical raw materials, product areas; the green chemical use and development, GTL, MTO, coal oil, biomass etc. introduction reflects sustainable development, recycling economy philosophy chemical industrial development impact. Oil and gas chemical process for the higher education industry, energy-related professional materials, also available in chemical engineering and process of teaching staff and related professionals_k production, management, engineering and technical personnel. Contents: 1 Introduction 1.1 Chemical Technology research category 1.2 the chemical industry's development and status of 1.3 organic industry development 1.4 the modern chemical industry characteristics and development 1.4.1 the modern chemical industry characteristics 1.4.2 chemical industry development direction of 1.5 this materials main contents and characteristics 2 organic chemical raw materials and products 2.1 Overview 2.2 coal 2.2.1 coal types and characteristics 2.2.2 coal elements and molecular structure 2.2.3 coal pretreatment 2.2.4...
