Most people would rather go to the dentist for a root canal than sit down and write a business plan. But if you run your own business, it s going to be hard to get anywhere without a plan. Want a business loan? The bank manager will want to read your plan and look at where you will spend the money. Want to expand? Your potential partners will want to read your plan and understand how will take market share from your competitors. Want to sell? Your buyers will want to read your plan and find out what the business is really worth. You get the picture; if you are in business, you need a business plan. Now just because writing a business plan is boring does not mean it has to be hard. You can take the hard work out of planning by using a business plan template. In this book, Allard Colley gives you six different business plan templates. These plans cover just about any business that you need to plan for. Allard starts out with a simple questionnaire to decide which is the best plan for you. He then guides you through your plan, step by step. All you need to do is answer the questions and fill in the blanks - it is a simple as that. Before you know it, you have completed your first draft without even trying.
