Reviews

This book is definitely not effortless to begin on looking at but quite entertaining to read. Better than never, though I am quite late in starting reading this one. I am just easily getting a enjoyment of looking at a written ebook.

The soul is always the great reality, the expression of one's life which is made up of the etheric and dense body. It is the soul force playing upon and functioning through the etheric body which evolves the specialized centers in that body, and which in turn acts upon the dense physical. This book is significant as an attempt, not only to interpret East to West and West to East, but to bring the two trains of thinking into the harmony of a single point of view. Whether the author has successfully achieved the integration remains for the reader to decide. But the attempt is a notable one and should bear fruit in a more intelligent approach to both types of thought. Printed Pages: 141.
