

Catalogue No; 3 of Electro-Therapeutic Apparatus: X-Ray Tubes, Shields, Fluoroscopes, Etc (Classic Reprint)

By R Friedlander

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Catalogue No; 3 of Electro-Therapeutic Apparatus: X-Ray Tubes, Shields, Fluoroscopes, Etc In presenting this catalogue to our many friends of the medical profession, we do so with a certain degree of gratification, as we believe that during the past ten years in which we have been importing and manufacturing X Ray tubes, we have been enabled to place I within the hands of the X Ray specialist, X Ray tubes of a standard that are today recognized as second to none, both as to results obtained from their use, as well as in the careful and mechanical construction for which our goods are noted. The perfection in the R. F. Tube has only been accomplished by the untiring energies of Mr. Robert Priedlander, who immediately after the discovery of the X Ray by Professor Roentgen, began the importing of X Ray tubes. The faulty construction that was apparent in the early type of X Ray tubes, the loosening of the tips, uncertainty of the focus, the constant raising of the vacuum of the tube during...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
