Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.This book explores the question of whether there is a trend toward global perception of the United States as a rogue state. Research revealed a rogue state is one that is isolated, dedicated to the rule of force, oppresses its people, disregards international law, and most of all threatens regional or international security. Based on this working definition, America s foreign policy history does not support characterization as a rogue state, though its dominant military and some imperialist history are exploited in rogue-America rhetoric. This has led to two trends in rogue-America perception: one toward isolation from other participants in the current world order; and the other of emerging powers exploiting rogue America rhetoric to advance their own ambitions of regional power. Were the United States to be isolated from the world order as a rogue state, global economic and security shocks would result. While there is a trend toward an overly militaristic American foreign policy, this is due more to the American military s responsiveness and capacity to accomplish non-military activities than a rogue state strategy dedicated to the rule of force. However, American strategic communications have been ineffectual in articulating this distinction, overcoming the stigma associated with militaries as instruments of oppression, and in conveying to the world a concise, sustained and positive message of its National strategy. The role of the military in United States foreign policy expanded after World War II. As an instrument capable of quick action, the American military was increasingly called upon to execute missions other than conventional war as a primary means of demonstrating National resolve. The United States government became more reliant on military options as the military expanded...
