The sections on specific issues reference more detailed and extensive CRS reports. (This issue brief emphasizes pollution-related matters; natural resource management issues are not included.) Appropriations for the Environmental Protection Agency (EPA) affect many of the programs and issues discussed in this issue brief (e.g., funding for state environmental programs, enforcement, water infrastructure projects and many others); thus, EPA's funding is an issue of perennial interest. At the beginning of the second session, Congress completed consideration of a consolidated appropriations act (P.L. 108-199, H.R. 2673), which provided \$8.37 billion for EPA in FY2004. Later in the session, action was completed on FY2005 funding. The conference agreement on the Consolidated Appropriations Act for FY2005 (H.R. 4818, H.Rept. 108-792) includes \$8.09 billion for EPA, subject to an across-the-board rescission of 0.80 . The Administration requested \$7.79 billion, and Congress appropriated \$8.37 billion for FY2004. The most controversial issues were the adequacy of funding for federal assistance to states for wastewater and drinking water infrastructure projects, scientific research on human health effects upon which pollution control standards are based, and cleanup of hazardous waste sites .
