And I will show this with so little ambiguity that it shall be perceived not as a phantom or hallucination. -from Chapter II: Common Ground Samuel Butler was a vocal apologist for theistic concepts, but this classic essay has been largely unavailable in standalone form since it first appeared as a series of articles in The Examiner from May to July 1879. Here, he decries pantheism; dismisses orthodox theism, which to him denies the physical existence of God to focus only on the spiritual; and goes on to explain his understanding of the likeness, or physicality, of God, and how it leads to the certainty of life after death. This is a vital work for appreciating Butler's other criticisms of scientific rationalism, including his 1879 book Evolution, Old and New....
