UNIVERSAL BEHAVIOR OF A CYCLIC OXIDATION MODEL

Universal Behavior of a
Cyclic Oxidation Model

NASA Technical Reports Server
(NTRS), James L. Smialek

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 26 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. A mathematical model has been generated to represent the iterative, discrete growth and spallation processes associated with cyclic oxidation. Parabolic growth kinetics ($k_{\text{sub p}}$) over and a constant spall area ($F_{\text{sub A}}$) were assumed, with spalling occurring interfacially at the thickest regions of the scale. Although most models require numerical techniques, the regularity and simplicity of this progression permitted an approximation...

Reviews

Absolutely essential go through publication. Yes, it really is engage in, nevertheless an amazing and interesting literature. Its been developed in an exceptionally straightforward way and it is simply following i finished reading this publication through which actually changed me, change the way i really believe.
