RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Original publisher: Washington, D. C. : Federal Communications Commission, 2000. OCLC Number: (OCoLC)45814983 Subject: Broadcasting -- Licenses. Excerpt: . . . kpmg Absolute win rate winners in-group total of parties in all groups combined of winners of winners in group total number of winners (also known in literature as a utilization rate) participation of parties in group total number of parties Disparity ratio of winners participation The relative award rate R is defined by the following equation: $N N N 1 1 1 R (z m) z m i i i N N N i 1 i 1 i 1$ where N is the number of hearings, i indexes hearings, z takes a value of one if the i license in hearing i is awarded to a minority and zero if not, and m is the percentage of i minority applicants in hearing i . The relative award rate is defined analogously for non-minorities, males, and females. Winner take all relative win rate winning parties in group where equity is controlling parties in group It is informative to contrast calculated win ratios...
